

Meet Your

Rhino TEACHER

Hello...

I am so excited to get to work with you and your child. I have worked in childcare for about 7 years, I worked with SSA in 2014 in the toddler class. Moved to Montana for a few years and then came back and started working with three year-olds. The threes are my passion, I love watching their personalities come to life. I am currently studying to earn my degree in Early Childhood Care and Education. My goal is to create an environment that is fun and friendly, so that the children can enjoy learning. I have 3 amazing children.
